3. Investment strategy

The composition of the portfolio is, except as provided below, active and independent of any benchmark, sector, country, maturity, market capitalization and rating requirements taking into account ESG factors and adverse sustainability impacts on sustainability factors.

The sub-fund invests its assets predominantly in equities whereby a significant part is invested in equities of companies engaged in the mining, processing and marketing of gold.

In addition the sub-fund may buy:

- shares of companies engaged in the extraction, processing and marketing of other primary resources and/ or
- bonds of all types listed on a stock exchange or traded on another regulated market which operates regularly, is recognized and open to the public - including zero coupon bonds and floating rate securities, participation certificates and convertible bonds and bonds with warrants attached to securities,

Detailed information on the sub-fund's investment policy can be found in the prospectus of the sub-fund.

4. Breakdown of investments

The applied exclusion criteria are used for all direct investments.

5. Monitoring of environmental or social characteristics

Compliance with the exclusions listed under "Investment Strategy" and "Description of Environmental or Social Characteristics" is checked in the pre-trade process by means of negative lists, which are stored in the order management system and updated at least quarterly. In the post-trade process MSCI ESG Research LLC updates the data on a weekly basis. The sustainability indicators integrated in the investment process are listed below:

6. Methods for environmental or social characteristics

The following methods are used for the sub-fund to check the described best-in-class approach and the listed exclusions. For the exclusions, negative lists are created using data from MSCI ESG Research LLC:

Exclusion criteria Defined exclusion criteria are checked using external data fields for all investments in the portfolio (negative list).

ESG-integration The fund manager follows a best-in-class approach, taking into account exclusions of companies that violate certain principles for reducing potential negative environmental and social impacts.

Sustainable investment The sub-fund does not aim for a minimum quota in sustainable investments within the meaning of Art. 2 No. 17 of the Disclosure Regulation.

7. Data sources and processing

As part of the best-in-class approach, potential companies are rated using an in-house rating methodology based on external ESG data (MSCI ESG Research LLC.) as well as proprietary research results. In case of doubt, the fund manager may subject the available data to a review by a committee.

8. Limitations regarding methods and data

The methods and data are limited insofar as data are not available or cannot be supplied for all securities. In addition data for an individual issuer may not be available to a sufficient extent. Furthermore these data may be based on estimates.

Securities without data are classified as "other investments", which may exceed 50% of the fund's assets. This also includes bank deposits and derivatives.

9. Investment verification (due diligence)

The sub-fund is subject to the investment process of the Fund Manager:

1/ Stock selection: The stock selection process includes analyst assessment, company interview, sustainability/ESG criteria, valuation, momentum and safety & liquidity categories. In each category a score is assigned in the range of -10 to +10, with -10 being the worst ranking and +10 being the best. All six categories are equally weighted in the standard process.

2/ Exclusions: The exclusion criteria applied reduces the potential investment universe.

10. Participation Policy

The participation policy of DJE Investment S.A. is available to investors free of charge on the website www.dje.lu under the header "Legal Notice".

11. Determined reference value

A reference value has not been determined for the sub-fund to determine whether this financial product is aligned with the advertised environmental and/or social characteristics.

Detailed information can be found in the overall document "Sustainability-related disclosures Transparency in the application of environmental or social features", which is published at <https://www.dje.de/transparenz-bei-dje-gold-und-ressourcen>.
